

1 -How to use this manual

This manual has been prepared for technical personnel at Ducati Authorized Service Centres with the aim of providing fundamental information on how to work in accordance with the modern concepts of "best practice" and "safety in the workplace" during the maintenance, repair or replacement of original components of the cycle parts and engine of this motorcycle.

All operations described in this manual must be carried out by experienced, skilled technicians, who are required to follow the Manufacturer's instructions in full.

Some information has been intentionally omitted, as we believe that all specialised technicians should have a basic technical background. Additional information on how to install various components is provided in the spare parts catalogue.

Important

This manual also describes the essential checks to be carried out prior to delivery of the motorcycle.

Ducati Motor Holding S.p.A. declines all liability for any technical errors or omissions in this manual and reserves the right to make changes made necessary by the technical evolution of its products without prior notice.

The information contained herein was correct at the time of going to press.

Important

Reproduction or disclosure of all or part of the contents of this manual is strictly forbidden. All rights on this manual are reserved for Ducati Motor Holding S.p.A. Applications for authorisation for reproduction must be submitted in writing and must specify the reasons for such reproduction.

Ducati Motor Holding S.p.A.

Layout of the manual

This manual is divided into sections (1), each identified by a letter.

Each section (1) is made up of several chapters (2), which are numbered consecutively.

The chapters (2) may be further subdivided into paragraphs (3).

The manual describes all repair operations starting from the fully assembled motorcycle.

The full procedure is described up to the point in which the motorcycle is restored to its fully assembled starting condition.

Important

Some of the sections of this manual are not present, since the motorcycle in question is not equipped with the relevant parts.

Important

The layout of the manual is designed in such a way as to be applicable to all the different models manufactured by Ducati Motor Holding.

To facilitate consultation of the manual, the table of contents is identical for all motorcycle models.
